Project Design Phase-I
Solution Architecture

Date	17 October 2022
Team ID	PNT2022TMID28345
Project Name	Project - Estimate the crop yield using Data Analytics
Maximum Marks	4 Marks

Solution Architecture:

```
        Download the Dataset and
        understand every feature in it.
                    │
                    ▼
        Upload the Dataset in
        IBM Cognos .
                    │
                    ▼
        Pre-process the data(data
        cleaning, handling missing values,
        handling noise, etc.,) in dataset
                    │
                    ▼
Visualize the data by creating  ◄──  Find patterns/trends in the data.
a Dashboard in IBM Cognos.
        │
        ▼
Export the Data Report.
```
